**MEILLIA KEE** grew up in a small town in New Zealand where I had the freedom to explore the natural environment around her. This desire to find out about the world led her to live, study and teach in different cities in New Zealand, Japan and the U.K. At GEMS International School, Meillia teaches ICT and English. She and her husband arrived in Penang after sailing on their yacht “Per Ardua” from New Zealand. Beginning in January 2012 this fantastic journey through the Pacific and SE Asia with their three children has introduced them to many cultures and experiences. Travelling, they met such a wide range of people, learning their stories and giving them many stories to tell. But they don’t have to go sailing off on adventures for stories, as stories are all around them. They are a way to reach out to people and connect with each other. Meillia loves telling stories, either from children’s books or from experiences. Stories can inspire, educate and maybe give each other a few laughs! When her children were little, she loved to read, and re-read, their favourite books, over and over again. She hopes audiences will enjoy hearing some of the stories she used to tell her children.
